International School, Vietnam National University, Hanoi (VNU-IS)

GPA 3.0 / 4.0

NGUYEN A CHAU

Full-Stack Web Developer

Booking & e-commerce apps · monday / Atlassian plugins · Data-driven systems

CORE STACK

React Next.js TypeScript Node.js Python
PostgreSQL MongoDB Docker Azure

PROFILE

Full-stack developer with 2+ years of experience building production web apps end to end, from database and APIs to responsive UIs. Experienced in booking and e-commerce products, monday and Atlassian plugins, data warehouse pipelines and rule-heavy business logic. Works directly with international and Japanese clients, with clear scope, milestone demos and clean handover.

EXPERIENCE

Full-Stack Developer

Sep 2024 – Present

DS Solution Vietnam · Hanoi

- E-commerce application:** product catalog, cart, checkout flow and admin dashboard for order management.
- monday & Atlassian plugins:** custom apps extending monday boards and Jira / Confluence workflows for business teams.
- Data warehouse projects:** pipelines to collect, clean and version data from multiple sources for reporting.
- Japanese public pension calculator:** translated complex pension rules into accurate, well-tested calculation logic.
- Containerized services with **Docker**; deployed front ends to **Azure Static Web Apps** and **Vercel**.

Tech: React, Next.js, TypeScript, Node.js, Python, PostgreSQL, MongoDB, REST APIs, Docker, Azure, Vercel

Freelance Web Developer

Freelance project

Client in Japan · Remote

- Built an online **booking / appointment website** on WordPress: service selection, calendar availability and confirmation.
- Customized theme and plugins to match the client's brand and business rules; fully responsive on mobile and desktop.
- Worked directly with the client from requirements to launch, handling feedback and change requests.

Tech: WordPress, PHP, JavaScript, HTML / CSS

WHAT I CAN BUILD FOR YOU

Web apps & dashboards

Next.js / React front ends with Node.js or Python APIs, auth and role-based admin panels.

Booking & e-commerce

Scheduling, carts, checkout and back-office tools, custom-coded or on WordPress.

Plugins & integrations

monday apps, Jira / Confluence extensions and third-party API integrations.

Data & deployment

ETL pipelines, PostgreSQL / MongoDB modelling, Docker and Azure / Vercel hosting.
